Academic program and course description guide

law Department

2024

:the introduction

The educational program is considered a coordinated and organized package of academic courses that includes procedures and experiences organized in the form of academic vocabulary, the main purpose of which is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs such as the external examiner program.

The description of the academic program provides a brief summary of the main features of the program and its courses, indicating the skills that students are working to acquire based on the objectives of the academic program. The importance of this description is evident because it represents the cornerstone of obtaining program accreditation, and the teaching staff participates in writing it under the supervision of the scientific committees in the scientific departments.

This guide, in its second edition, includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the latest developments in the educational system in Iraq, which included a description of the academic program in its traditional form (annual, quarterly), in addition to adopting the description of the academic program circulated according to the book of the Department of Studies, T.M.3 /3. 2906 on 5/3/2023 regarding programs that adopt the Bologna Process as a basis for their work.

In this area, we can only emphasize the importance of writing descriptions of academic programs and courses to ensure the smooth conduct of the educational process.

:Concepts and terminology

Description of the academic program : The description of the academic program provides a concise summary of its vision, mission, and goals, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description : Provides a necessary summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve, demonstrating whether he or she has made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be a developed, inspiring, motivating, realistic and applicable programme.

Program message: It briefly explains the objectives and activities necessary to achieve them, and also identifies the program's development paths and directions.

Program objectives: These are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum structure: All courses/study subjects included in the academic program according to the approved learning system (semester, annual, Bologna track), whether it is a requirement (ministry, university, college, or scientific department), along with the number of study units.

Learning outcomes: A consistent set of knowledge, skills, and values that the student has acquired after the successful completion of the academic program. The learning outcomes for each course must be determined in a way that achieves the program objectives.

and learning strategies : They are the strategies used by a faculty member to develop student teaching, and learning and they are plans that are followed to reach learning goals. That is, it describes all classroom activities and extracurricular to achieve the learning outcomes of the programm

See the program .1
In view of the penetration of the science of law into various areas of our lives, as it is an organizing tool for all of these areas, the department has developed a vision for itself that focuses on the academic aspect without eliminating interest in the practical aspect of education, by commenting on judicial decisions related to the topics of the lectures, encouraging the movement of scientific and practical research, and training students in Courtyards and judicial and legal departments.

Program message .2
Preparing human rights generations armed with the knowledge that qualifies them to establish the concepts of justice, democracy, and the rule of law in our new Iraq.

Program Goals .3
The department has goals that go beyond graduating distinguished legal cadres to contributing to community service in other ways, including holding legal courses on topics that can be described as modern in the legal field for lawyers and legal cadres in the public and private sectors, as well as contributing to providing legal advice to public and private institutions and establishing the legal clinic to assign cases. Groups who are unable to hire lawyers to defend their rights.

Evaluation methods .11
Daily surprise exams
Monthly exams
Mid-year and end-of-year exams
Grades are given for class participation and homework
Continuous observation of the student by his teaching staff
Continuous student interviews
Continuous open discussions with students

Professional development
Orienting new faculty members
Paying attention to scientific research by new teaching staff to have positive effects in lecturing and benefiting from keeping pace with changes in the international arena by providing the department with new scientific research and adhering to ministerial administrative and scientific instructions, and requiring new teaching staff to complete all courses and requirements that qualify them to teach in the department and to train them before. Old teachers by attending their lectures to benefit from the delivery process.
Professional development for faculty members
Developing the process of delivering information to the student by adopting modern learning strategies integrated in theory and practice, as well as field visits to institutions related to the specialty and participating in conferences, seminars and workshops that increase the teacher's information in the field of his specialization as a teacher and develop his ability and ability to perform his scientific and administrative tasks, and prepare a plan for developing Their skills through holding development courses (personal, administrative, legal, financial).

Acceptance standard   .12
Associated with the Ministry of Higher Education and Scientific Research

The most important sources of information about the program   .13
Iraqi government universities, Arab and international universities, and workshops and seminars held in this regard.

Program development plan   .14
It depends on the college's policy and plans for development by keeping up with
