Ministry of Higher Education and Scientific Research Scientific Supervision and Scientific Evaluation Apparatus Directorate of Quality Assurance and Academic Accreditation Accreditation Department

Description of the Academic Program Department of Physical Education and Sports Sciences/ College of Education/Al-Kitab University

2024/2025

Introduction:

The educational program is a well–planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

<u>Academic Program Description</u>: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course Description</u>: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

<u>Program Vision</u>: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

<u>Program Mission</u>: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

<u>Program Objectives</u>: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

<u>Teaching and learning strategies</u>: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. **Program Vision**

Our vision is strive for quality and excellence locally and regionally, leading the department to its theoretical and practical educational outputs in the field of physical education and sports sciences and their applied branches.

2. Program Mission

The Department works to create an appropriate educational environment for its students to provide various relevant knowledge and science, and contribute to the development of the individual and society according to available resources.

3. Program Objectives

- 1. Working to achieve the general and specific objectives of the Department of Physical Education and Sport Science.
- 2. Setting criterions and standards for quality in the educational sports activities in the department.
- 3. Rehabilitating of human capabilities through the development of programs for physical and scientific activity.
- 4. Raising the scientific level of students through the development of curricula (theoretical and applied).
- 5. Performing the skills of sports activities, and applying the requirements of security and health safety in the environment of sports practice.
- 6. Raising the level of interaction between civil society institutions through holding conferences and seminars in all fields.

4. Program Accreditation

None

5. Other external influences

Ministry of Education, Ministry of Youth and Sports, Ministry of Planning

6. Program Struct	ure				
Program Structure	Number of Courses	Credit hours	Percentage	Reviews*	
Institution Requirements	9	18	11%	Basic	
College Requirements	-	-	-	-

8. Expected learning outcomes of the program

Knowledge

After successfully completing this program, graduates will have:

A1. Basic, historical, philosophical, social and psychological knowledge of physical education.

A2. Basic knowledge of physical education related to vital aspects (Anatomy, Physiology and Biomechanics) and health.

A3. Theoretical knowledge related to individual and team sports.

A4. The foundations of scientific research and methods of measurement and evaluation in physical education.

Skills

After the successful completion of this program, graduates will be able to:

B1. Teach physical education and movement sciences for the secondary education stage.

B2. Build appropriate education strategies for the secondary education stage.

B3. Analyse sports problems and propose appropriate solutions.

B4. Assess the need for national and global sustainable development.

Ethics

After the successful completion of this programme, the graduates will enhance to:

C1. The value of loving work, taking responsibility, and teamwork.

C2. The coexistence, exchange, and acceptance of others, since sport is a means of meeting and

bringing people closer together despite the existence of intellectual and cultural differences.

C3. The value of behavioural discipline.

C4. The transparency by promoting the concept of the rights and duties of students vis–à–vis the department, college, university, and homeland.

9. Teaching and Learning Strategies

- 1. Method of lecture, discussion, questioning, exploration, special methods in teaching common concepts) This is related to theoretical education.
- 2. (The method of cooperative learning and small groups) with regard to the practical aspect.

10. Evaluation methods

Daily, quarterly and final written and practical exams, distributed 50% for the first and second semesters and 50% for the end of the year.

11. Faculty

Professional Development

Mentoring new faculty members

- The Introduce the new faculty staff member to the vision, mission, and development goals of the university
- To inform the new faculty staff member of the role and responsibility of the university.
- To Sensitization of the new faculty staff member to his or her rights and duties.

Professional development of faculty members

- To assist the new faculty staff member in alleviating his or her concerns as he or she engages in the educational process.
- To Participate of faculty staff member in professional and academic development programmes at the university.

- To Definition of the new faculty staff member to the university's scientific research programs to enable him to contribute to serving the university and society.

12. Acceptance Criterion

Admission is direct, according to the regulations approved by the Ministry of Higher Education and Scientific Research.

13. The most important sources of information about the program

Books, periodicals, theses, the international information network, and the personal experience of the instructor who is teaching the course.

14. Program Development Plan

- 1. Review the previous steps and their outputs.
- 2. Viewing the latest developments from books, periodicals and the information network in the field of physical education and sports sciences.
- 3. Periodic (annual) updating of approved teaching plans.
- 4. Viewing the international information network (Internet).
