Iraq. Kirkuk

I teach physical education and sports sciences, specializing in basketball mechanics. I am also a basketball player and coach certified by the International Basketball Federation and the Iraqi Basketball Federation, and I hold a basketball fitness certificate from the University of Miami.

Research areas and most important published research

- A comparative study between fourth-year female basketball students regarding the variables of neuromuscular coordination and motor balance - (University of Diyala)
- Focus of attention and its relationship to the accuracy of shooting free throws in basketball - (University of Baghdad)
- The characteristic of anxiety and its relationship to the accuracy of free throw shooting among Iraqi youth basketball clubs (Tikrit University)
- Sports anxiety and its relationship to high long serve performance in badminton –
(University of Babylon)
